Salmon and Steelhead Restoration Group Meeting of 2007

Come and learn about the King Salmon in San Jose and the status of the Guadalupe River.

Our overview presentation will be on the salmon activity in the Guadalupe River from 1992 to present including the most recent discovery of the Columbian Mammoth found by Roger Castillo on Guadalupe River.

Located at Dr. Martin Luther King, Jr. Library 150 San Fernando St. room 255 in San Jose. 5:30pm to 8:00pm Thursday May 17th. Hosted by Roger Castillo Naturalist/Paleontologist and Salmon specialist.

For parking info at Library call (408) 808-2000
